½ Day Golf Schools

Video swing analysis using slow motion video capture (300 frames per second) and V1 PRO (worlds no 1 video analysis software) to help you gain a better understanding of your golf swing and how to make it more consistently efficient. You will also receive an email of your video lesson with analysis delivered free to your personally created online locker on completion of school.

Long Game

Every aspect of YOUR long game will be analyzed and evaluated before YOU learn the appropriate SKILLS and DRILLS that will soon have YOU hitting longer and straighter drives AND more accurate approach shots with YOUR irons. By adopting the same routines and techniques as some of the finest PROFESSIONALS in world golf, YOU will learn to hit the ball more solidly and play consistently better golf!

Short Game

Every aspect of YOUR short game will be analyzed and evaluated before YOU learn the appropriate SKILLS and DRILLS to enable you to take YOUR short game to a different level. Whether it be chipping, pitching, bunker play or putting, by employing the same routines and techniques as some of the top PROFESSIONALS in the game, YOUR short game and YOUR SCORES will improve dramatically!

Course Management

The majority of people who play golf don't shoot the scores they are capable of due to 2 things, POOR TECHNIQUE and POOR COURSE MANAGEMENT SKILLS. By learning how to THINK YOUR WAY round the golf course, just like the PROFESSIONALS on all the world tours do, YOU can knock shots off YOUR scores and be a happier golfer with a lower handicap as a result!
